

SEMINAR

ROCKWELL KINETIX SERVO MOTION PRODUCT SEMINAR

Join us as we show you the benefits of Kinetix Integrated Motion Control Platform and introduce you to several new and exciting products.

You will be introduced to the latest Rockwell servo drives on EtherNet I/P and SERCOS, plus have a chance to “Test-Drive” the equipment using Rockwell provided demos. If you have not used Kinetix Integrated Motion before, or have interest in the newest products, sign up today!

COURSE HIGHLIGHTS

- Benefits of Kinetix Integrated Motion
- Kinetix 300 Ethernet/IP Indexing Servo Drive Demonstration
- Kinetix 6500 Ethernet/IP (CIP Motion) Drive Demonstration
- Kinetix Servo Drives with Enhanced Features for Machine Safety
- Overview of new servo motors and linear actuators
- Rumsey Motion Specialists will be available to discuss your applications and answer questions
